DESIGN

150 WATT
POWER

TECHNICAL SPECIFICATIONS:

Input: 12V DC

Output: 230V AC, 50Hz

Maximal power: 150W

USB-Port: 5V DC, 500mA

Temperature protection: max. 50 degrees Celsius

Protection: Reverse polarity protection by fuse, overload protection, Under and over voltage protection

General: Low battery alarm (10V) and shut-down (9.5V)

Efficiency: 85%

EAN CODE: 8716065219890

Get 230V AC almost everywhere!

The EM3990 is a 12 Volts DC inverter. Combined with a battery, like the one present in your car or boat, you can use it to power a 230-Volt AC device. The inverter also offers you one USB power port, which can be used to charge almost any USB powered device, like a phone, MP3 player or portable game console.

- 12 Volt DC to 230 AC Volt Inverter
- Plugs straight into your cigarette lighter
- Built-in USB charging port for Phone/MP3/Media player
- 150 Watt output power
- 2-Year warranty
- Accessible helpdesk
- Multilingual user manual
